The graph depicts three curves representing different data sets:

- **Original** curve, represented by blue color.
- **Smoothed with Gaussian1DKernel** curve, represented by orange color.
- **Smoothed with Box1DKernel** curve, represented by green color.

The x-axis is labeled as `x [a.u.]` and the y-axis as `amplitude [a.u.]`. The x-axis ranges from -4 to 4, while the y-axis ranges from 0.0 to 1.4.
